THE CHAMPLIN FOUNDATION

2016 At A Glance

In 2016, 390 applications were received and 341 were referred to the Distribution Committee for consideration with 173 approved for full or partial funding. The total distribution for 2016 was \$16,153,620. Categories on a percentage basis were mainly consistent with the prior year with Healthcare remaining the top category followed closely by Youth Services, Education, and Conservation & Parks.

Of particular note, as a result of a merger effective December 31, 2016, the three prior foundations known collectively as “The Champlin Foundations” have been consolidated into one and going forward shall be referred to as “The Champlin Foundation”. The result of this merger will allow the foundation to operate more efficiently and allow for some meaningful cost savings which we anticipate being able to pass along to the non-profit community in the form of increased support.

About the Cover

Broadwall Farm - Coventry

This 224-acre farm in Western Coventry represented one of the last large unprotected farms in the state with scenic views of rolling fields and an historic farmstead dating from the 1750's. The impressive network of very wide stone walls provide the farm's namesake.

In 2016, the Agricultural Development Rights were purchased by the State of Rhode Island with the help of a Champlin grant that preserves this beautiful landscape permanently.

The collaboration of Champlin, The Rhode Island Community Foundation, and the Providence Parks Department continued in 2016 to make comprehensive capital improvements to Roger Williams Park. Here, two young visitors enjoy the Roger Williams Park Botanical Center.

Social Services

Hope Alzheimer's Center located in Cranston provides important day services, such as Pet Therapy, to those afflicted with the disease.

Since 2010, through a series of grants, Champlin has provided funding for interior upgrades and furnishings.

One of the highlights of 2016 was the dedication of *King Preserve* in Saunderstown on June 4, 2016 in memory of the late David A. King, Champlin's long time former Executive Director and Committee Member. Pictured above is Dave's daughter Wendy Skinner, her husband Don Skinner with Julia, and Terry Sullivan, State Director of The Nature Conservancy.

About the Foundation

Beginning with the establishment of S. B. Champlin Company by Stanton Browning Champlin in 1872, The Champlin Family was at the forefront of business and industry in Rhode Island for three generations.

Under the guidance of Stanton's son, George Byron Champlin, and then his grandson, George Stanton Champlin, an industrial empire was created stretching from Canada to Georgia, manufacturing aluminum, copper and brass tubing, jewelry, wire, valves, hand trucks, pipe fittings and hand pumps.

When George S. Champlin died in 1980 at the age of 98, he was one of the wealthiest individuals in the state.

The Champlin siblings grew up in Rhode Island, and George S. Champlin and Florence Champlin Hamilton lived their entire lives here. They were both active in philanthropy and made substantial personal contributions during their lifetime, often anonymously.

As their wealth increased, so did the family's interest in philanthropy. Together with his sisters, Florence Champlin Hamilton and Hope Champlin Neaves, George S. Champlin established The Champlin Foundation Trust in Delaware in 1932. They also created The Second Champlin Foundation in 1947. The Third Champlin Foundation was established by George S. Champlin in 1975.

Both Mrs. Hamilton and Mr. Champlin left the bulk of their estates to the Foundation.

None of the three siblings were survived by children or other heirs.

George S. Champlin with his father George B. Champlin
[photo taken approximately 1931]

As a result of a merger effective December 31, 2016, the three prior foundations known collectively as "The Champlin Foundations" have been consolidated into one and going forward shall be referred to as The Champlin Foundation.

1826 ~ 1895

Guidelines

Application Process

Applications should be as brief as possible, preferably one page. There are no forms to be requested from this office.

The application should address the following:

- ❖ Need(s) of the organization
- ❖ Amount requested
- ❖ Other sources of potential funding
- ❖ Costs associated with item(s) requested
- ❖ Status of any fundraising efforts
- ❖ Project timeline

A one page budget should be attached and costs quoted should be as accurate as possible.

Applicants must also forward a copy of the organization's letter from the Internal Revenue Service granting tax exempt status under Section 501(c)(3) of the Internal Revenue Code and further confirming the organization is not a private foundation within the meaning of Section 509(a) of the Code.

Grants are not awarded on a multi-year basis but applicants may qualify annually.

Applications will not be accepted via facsimile or e-mail.

Application Period
March 1st - April 30th

Interests of the Foundation

- ❖ Animal Welfare
- ❖ Arts & Sciences
- ❖ Colleges & Universities
- ❖ Cultural Organizations
- ❖ Historic Preservation
- ❖ Hospitals & Healthcare Agencies
- ❖ Libraries
- ❖ Open Space, Parks & Recreation
- ❖ Protection of the Environment
- ❖ Public & Independent Schools
- ❖ Social Services
- ❖ Youth Organizations

Funding Cycle

Applications are accepted between March 1 and April 30. Grant requests are researched and evaluated throughout the cycle in preparation for the Annual Meeting held in mid-November.

Site visits are often part of this process and should not be construed as either a positive or negative regarding the status of an application but simply a part of our information gathering.

Types of Support

Grants are awarded to tax-exempt organizations, substantially all in Rhode Island, for the purchase of equipment and for construction, renovation or purchase of real estate. Out of state applicants to be considered must demonstrate a strong nexus to Rhode Island and it's people. Grants are also awarded on a *very limited basis* for reduction of indebtedness *exclusively* related to building acquisition or building improvement.

No grants are awarded for program or operating expenses with the following well established exceptions:

Since 1982, a scholarship program has been funded at Brown University. This program supports graduates of Rhode Island public high schools admitted to Brown. Also, since 1991 a more limited scholarship program has been funded for Rhode Islanders at Brown Medical School regardless of high school or college affiliation.

Since 1991, funds have been awarded to select organizations to provide financial assistance for children who might otherwise not be able to afford summer camp.

Since 2001, annual support for the Thomas F. Black, Jr. Memorial Scholarship Fund has been provided through grants to the Rhode Island Bar Foundation for law school scholarships made available to Rhode Island residents.

Since 2002, grants have been made to The Nature Conservancy towards stewardship costs associated with nature preserves acquired largely through prior Champlin grants.

Final Notification

Unsuccessful applicants will be notified in writing anytime from one week to eight months from receipt of their application.

Successful applicants are notified shortly after the Annual Meeting in November.

Funds are distributed in mid-December.

Rhode Island	171	\$ 15,952,055
Out of State	2	185,100
Total Geographic Distribution	173	\$ 16,137,155

By letter dated September 12, 1964, George S. Champlin, Florence Champlin Hamilton and Hope Champlin Neaves outlined for the Distribution Committees their collective philosophy on charitable giving.

With the passing of the last Champlin sibling in 1987, the sentiments expressed in the following excerpts from this letter continue to be referenced by the Committee in its work, helping to keep alive the spirit of philanthropy practiced by this remarkable Rhode Island family.

September 12, 1964

"To the Members of the Distribution Committees of the Champlin Foundations

A desire has been expressed for suggestions from the Grantors outlining their wishes in regard to the Foundations so that in future years these will be a guide in helping the Distribution Committees of the Foundations to carry out the wishes of the Grantors...

...One of the main objects of giving should be to help people help themselves...

...The future of our State and Country will depend on the young people who will eventually be running the Country, as well as its industries and making the discoveries and inventions of the future. Whatever can be done to help them develop physically and mentally in the right direction will make this a better place in which to live.

The elderly and sick should also have consideration as there are times when these people through no fault of their own are unable to take care of themselves...

...It is believed that..., in general, the Foundations should provide capital funds for needed development rather than to provide funds for general operating expenses...

...It is the sincere wish of the Grantors that these Foundations may continue to offer help to the helpless and hope to the hopeless in the future as we believe that they have done in the past and we feel confident that under the direction of men and women of good will, this will continue to be done."
